

# SAFETY ACADEMY

ENGAGE . ENHANCE . PROMOTE

## OSHA 30-Hour Plus for Construction Register Today!

The Plus in the OSHA 30-Hour is what makes this a new course this season. Starting this season attendees will hear training from perspective that blends compliance with best practice.

This course provides an in-depth review of hazard awareness. Emphasis is placed on areas in construction that most commonly result in injury or damage. The OSHA 30-Hour covers all topics covered in the OSHA 10-Hour but to a greater depth in addition to subject not covered in the 10-Hour.

Plus also means that participants will receive both a laminated certification card from OSHA and the Field Safety credential from the National Center for Construction Education and Research (NCCER). For those pursuing the NCCER Construction Site Safety Professional (CSSP) certification, the OSHA 30-Hour Plus meets a necessary requirement.

For more information on the CSSP see the CSSP flyer or contact Ben Holst.

Audience: Project managers, supervisors and safety leaders

Tuition: \$495 (\$360 CIC Member Rate) (\$330 AGC Member Rate)

Time: 8:00am – 5:00pm (4 days)
