Construction Site Safety Professional Training

Starting in December 2014 the AGC of SD will be offering a new series of safety leadership classes from the National Center for Construction Education & Research (NCCER). The classes listed on this sheet can be taken as stand-alone or compiled to meet the needs of your company.

Construction Site Safety Program (CSSP)

For those wanting more the classes can be taken in series as part of NCCER's CSSP. The tiered structure of the CSSP offers four levels of safety certification. The levels are as follows:

- Construction Site Safety Master Instructor (CSSM)
- Construction Site Safety Technician (CSST)
- Construction Site Safety Supervisor (CSSS)
- Construction Site Safety Orientation (CSSO)

Instructor Certification Training Program (ICTP)

The ICTP is a course for project managers, supervisors, foreman and others who lead or train in your organization. Subjects covered in the ICTP include the following:

- How Learning Occurs
- Communication for Learning
- Leadership and Group Dynamics
- Administration and Classroom Management
- Teaching Strategies

Everyone pursuing certification as part of the CSSP must attend the ICTP and have an OSHA 500 or NCCER Field Safety credential. Field Safety is a 4 day class that is being offered in conjunction with an OSHA 30 hr class January 8,15,22, 29 in Sioux Falls and February 5, 12, 19, 26 in Rapid City.

NCCER Safety Technology

Safety Technology provides instruction on how to implement and administer a company's safety program. This training is designed for project managers, supervisors and safety directors. The modules included in Safety Technology are listed on the back of this sheet.

NCCER Safety Technology Modules

Each of the following modules is 2 hours long and suited for project managers, supervisors and safety directors. The classes in bold will be offered in Rapid City at the CIC and Sioux Falls at the AGC office on the dates listed below. Cost is \$60/person/module and every third module is free.

- ST01 Hazard Recognition, Evaluation and Control
- ST02 Risk Analysis and Assessment
- ST03 Inspections, Audits and Observations (9am-11am | January 7, 2015)
- ST04 Employee Motivation (9am-11am | January 21, 2015)
- ST05 Site-Specific ES&H Plans (9am-11am | January 28, 2015)
- ST06 Emergency-Action Plans
- ST07 Jobs Safety Analysis and Task Safety Analysis (9am-11am | February 4, 2015)
- ST08 Safety Orientation and Training (9am-11am | February 11, 2015)
