Aerial Work Platform (AWP) Operator Training

The Aerial Work Platform Operator Training course educates attendees in the safe operation of scissor lifts, boom lifts and articulating lifts. This course covers the principles and hazards associated with operating an AWP as well as the unique characteristics of AWP's that operators will commonly operate. Trainees will need to demonstrate comprehension through a written test in addition to practical competency through a hands-on operation of an AWP.

Successful participants will receive a laminated certification card.

Time: 8:00am – 10:30am

Tuition: \$120 Non-Member, \$96 CIC Members, \$80 AGC Member Rate

Min/Max Participants: 5/15

Dates/Location: Rapid City –March 29, 2018
