

AGC OF SOUTH DAKOTA **to host** **Trench Safety Stand Down** **June 18th** **7:00am - 9:00AM @ WDT**

Have you registered attendees for the Trench Safety Stand Down? Thanks to many generous sponsors we have planned an awesome event to focus on Trench Safety with practical demonstrations and real excavations! OSHA is confirmed to speak. So come hear what issues they are finding in the state, you continue proactively protecting your employees and if they show up at your site, you'll be in compliance. This event isn't just for AGC members, so if you have a subcontractor that should attend, just pass along this information so that they can RSVP. We want an RSVP number to have an accurate head-count number for donuts & drinks (unless other sponsors want to pitch in toward this expense?)

What is a Safety Stand Down?

Trench Safety Stand Down is a safety activity to draw attention to the specific hazards related to working in and around trenches/excavations. This Stand Down will focus on trench & excavation hazards and reinforce the importance of using trench protective systems and protecting workers from trenching hazards.
