About Coleman Moore Company

Coleman Moore Company was established in 2004 to supply geogrids, geotextiles, erosion control and sediment products throughout the state of Iowa. Coleman Moore Company's main offices and warehouse are located just north of downtown Des Moines at 220 New York Ave. As of August 1st, 2015, Coleman Moore has opened a new location in **Rapid City, SD**, located at **111 Poplar Avenue**.

The Rapid City Manager, Greg Wright, is a Rapid City native and has over 25 years of experience in the construction industry. Greg looks forward to working closely with the local and regional construction community. Please feel free to call him at **(605) 787-3209** to learn about the product line, set up a presentation, or visit the warehouse.

Coleman Moore Company's approach is simply to work closely with contractors, engineers, and architects. The company focuses on education through group product presentations, one-on-one meetings, and site visits during the installation process. This approach helps ensure proper product selection, a quality installation, and excellent overall performance. Being involved from the beginning design stage to the installation has proven to be a winning formula, and a key to its long-term relationships with contractors and engineers.

Coleman Moore is committed to customer service. Its sales and office staff have a complete working knowledge of the products and can answer any questions you may have. If we cannot answer your question, we will find the answer and get back with you.

Coleman Moore Company believes you should receive great service on your deliveries and fast and accurate information on products to help you make informed decisions for your project. Coleman Moore Company will also help you with cost benefit analysis of the varied products, as well as processes to ensure the customer optimum value.

As with all great businesses, Coleman Moore is built on the relationships we have formed. Those relationships are the backbone of our company.
