HERE IT COMES!

Construction Industry Center/
B.H. Home Builders Association

Surplus
Materials &
Equipment
SEPTEMBER 15

Central States Fairgrounds Soule' Building

The Construction Industry Center and the Black Hills Home Builders Association for the past several years have combined to sponsor a surplus materials and equipment auction for members of the association(s). This auction has become very popular with both consignors and the public and continues to grow in size with each successive year.

How does it work?

- CIC & BHHBA rents the facility, hires the auctioneer and handles all the advertising.
- You consign your items and receive an 85% return
- 90% return on single item sales of \$5,000 - \$10,000
- 95% return on single item sales \$10,000+

How do I participate?

- Contact C.I.C. at 343-5252 or B.H.H.B.A. at 348-7850 to receive a contract and consignor number
- Set aside any materials and/or equipment you wish to consign and mark them with your company name and consignor number.
- Drop them off at the fairgrounds the day before the auction.

**Whether you're buying or selling
be sure to mark this date on your calendar!**

7 AM - 5 PM**

HAZWOPER Technician

Course Information

Burress Advisory Group, LLC is offering an OSHA 40 Hour HAZWOPER Hazardous Materials Technician course. The class will run four days and the schedule will be 10 hours per day. This course will meet all 29CFR1910.120 requirements and will consist of 50% classroom instruction and 50% hands-on practical application. The course participants will be required to complete several written exams, paperwork exercises, and skills evaluations. A certificate of completion will be issued to each student who successfully completes the class.

The course is being held at:

Site Construction Industry Center

Address 2771 Plant Street

City Rapid City ST SD ZIP 57702

Phone (605) 343 5252

Lunch daily will be on your own. There are several restaurants within close proximity to the training site.

29CFR1910.120(q)(6)

Hazardous materials technician. Hazardous materials technicians are individuals who respond to releases or potential releases for the purpose of stopping the release. They assume a more aggressive role than a first responder at the operations level in that they will approach the point of release in order to plug, patch or otherwise stop the release of a hazardous substance. Hazardous materials technicians shall have received at least 24 hours of training equal to the first responder operations level and in addition have competency in the following areas and the employer shall so certify.

Schedule & Topics

Day One Tuesday 9/18

Introduction, Regulations & Standards, Chemical & Physical Hazards, Health Hazards, and Information Sources

Day Two Wednesday 9/19

Health & Safety Plans, Emergency Response Plans, Personal Protective Equipment, Respiratory Protection and Chemical Protective Clothing

Day Three Thursday 9/20

Decontamination, Incident Command Systems (NIMS) and Air Monitoring, DECIDE & Hazard Analysis

Day Four Friday 9/21

Drum Handling, Spill Control, Confinement, Containment and Sorbents, Review & Final Exam

The course will include several quizzes, written exercises, hands-on competency evaluation exercises and a final exam. A 70% passing score is required on all quizzes and exams. Retest opportunities may be made available as necessary.

Interior, SD	Construct Coral Fence	Mon 8/20 2:00 PM MDT

ISSUING OFFICE	The Owner is the Issuing Office on this project.	
DEPOSIT	Please submit all inquiries to OSLH, Phone: (605) 867-5161, Attention: Doyle Pipe On Head, Assistant CEO / Contract Officer.	
EST. COST	The maximum OSLH budget for this is \$100,000 for each contract.	
DESC	Oglala Sioux (Lakota) Housing Request for Two Architectural/Engineering Proposals (RFP) (The 18 Unit Project & Energy Consultation Advisory) Oglala Sioux (Lakota) Housing (OSLH), a tribally designated housing entity at Pine Ridge, South Dakota, requests written proposals from qualified architect/engineering firms for architect and engineering services as described below: Scope of Work One or two architectural / engineering (A/E) firms shall be retained to provide the following purposes 1) general architect and engineering services in connection with the development and construction of the 18 Unit Project consisting of scattered, single family, energy efficient, low rent, 3 bedroom, 1 bath or 1 Ya bath, slab on grade, detached, homes, with consideration of using structural insulated panel technology on the Pine Ridge Reservation and 2) a separate energy consultation advisory on replicable energy efficiency and alternative energy system for use on the 18 Unit Project and other OSLH projects. These design services are broken down into two parts. Part I consists of an Energy Consultation Advisory that will first evaluate and determine, with OSLH involvement, the best and most feasible forms of replicable energy efficiency measures and/or alternative energy sources e.g. passive solar, solar panels, wind generator, water pump and loop, for The 18 Unit Project and other similar OSLH projects in the future. Part II will be to provide general architectural engineering services to design and construct of The 18 Units Project. Work in this contract will include but is not limited to design, bidding, contracting, construction monitoring, materials spec. book, payment administration and close-out. For some of these contracting and bidding services the A&E shall work together with OSLH attorneys. The design professionals hired to do the work will take into consideration the evaluations, recommendations and advice issued by the party hired by OSLH to do Part I.

ISSUING OFFICE The Owner is the Issuing Office on this project.

DEPOSIT Solicitation documents available through Feb Biz Opps at www.fbo.org

EST. COST \$25,000 to \$100,000

COMPLETION It is estimated that work can begin August 2012. Work shall be completed within 90 days of the issuance of the Notice to Proceed. Complete the entire work ready for use not later than September 30, 2013.

SITE VISIT No pre-bid tour will be conducted; however, all bidders are encouraged to visit the project site. For directions to the project site contact the Sioux Ranger District at (605)797-4432. For additional contract information contact Linsey Smith at the Custer National Forest Supervisor's Office, (406)255-1421.

DESC Item #1 - The dam embankment at Brown's Pond is eroding due to high water cutting through the dam bank, in some areas as high as 5 feet. The Contractor shall repair the entire eroded dam bank, approximately 870 feet long, with compacted fill material topped with geotextile and class 3 riprap. The Contractor shall place the riprap on compacted fill from a commercial site (onsite borrow is not permitted). Using Excavator Equipment Rental Hours, the Contractor shall locate the inlet drop pipe of the culvert which should act as the dam's primary drain structure. The Contractor shall then remove and replace the elbow and vertical drop pipe of the culvert and trash rack and clean out any remaining sediment plugged in the horizontal culvert. If no elbow, vertical drop pipe and trash rack exist, the Contractor shall provide them. The Contractor shall also clean the inlet to the PVC pipe that also serves as a drain structure for the dam. The Contractor shall repair the spillway where water has cut deep ruts up to and across the road and place geotextile and 5 jersey barriers along the south edge of the road at the spillway location, as shown in the DRAWINGS. The Contractor shall repair the ruts and depressions up to and across the road and fill in the eroded ditch that extends out past the road (see DRAWINGS). The Contractor shall place 4" compacted aggregate on the road where the spillway crosses the road.
Item #2 - The Contractor shall place compacted fill into the ditch cut at the Schleichert Draw Reservoir dam spillway and cover with a layer of riprap, as staked in the field. The Contractor shall remove the beaver dam that is currently at the spillway. The Contractor shall place 3 jersey barriers 18' from the spillway edge to prevent further erosion of the spillway. Materials furnished by the Government for this project includes 150 cubic yards of class 3 riprap stockpiled at Brown's Pond for use on the Brown's Pond embankment.

ADDENDA [Addenda 1]: Aug 9

PLAN HOLDERS LIST AVAILABLE AT CIC

Brookings, SD **Frost Arena HVAC Replacement** **Fri 8/24 5:00 PM CDT**

CIC Job Number#: 2012-1675 **Solicitation/Project # R0313-01x**

OWNER State of South Dakota Office of the State Engineer Joe Foss Building, 523 East Capitol Pierre, SD 57501-3182
Phone: (605) 773-3466 Fax: (605) 773-5980 web site: www.state.sd.us/boa/ose/

ISSUING OFFICE The Owner is the Issuing Office on this project.

DEPOSIT RFI Documents may be viewed/downloaded at <http://www.state.sd.us/boa/ose/RequestStatementsInterest.htm>.

COMPLETION The tentative completion date for the project is December 2013.

SITE VISIT Firms that wishing to visit the site the campus should contact Roger Thue at 605-688-6051 or email Roger.Thue@sdsdstate.edu or Colby Blakke 605-773-3898 or email at Colby.Brakke@state.sd.us.

DESC The scope of work is for Design Services to replace the current heating, ventilation and environmental control systems serving Frost Arena. The existing system consists of ten constant volume mixed air heating and ventilating units, utilizing steam coils as the heating source. Mechanical cooling does not exist. The exhaust system consists of five power roof ventilators located along the centerline of the arena. Five of the Air Handling Units (AHU's) are located above permanent bleachers. The other five are located above the indoor track and retractable bleachers. The existing units are pneumatically controlled. This project will include removal of ten existing AHU's, five power roof ventilators and replacement with new systems, which will incorporate energy recovery of the exhaust air stream. The system designed will have to be capable of being constructed in stages and coordinated around an occupied or partially occupied building.

Sioux Falls, SD Flooring at Sioux Falls VAMC (Cont'd)**Tue 8/28 2:00 PM CDT****CIC Job Number#: 2012-1549****Solicitation/Project # VA26312B0927**

DESC A. Install approximately 15,355 sq. ft. Centiva wood look (or the equivalent) 6"x36" plank vinyl flooring provided by the contractor, on the ground floor hallways of Primary Care, Spec Med, the Emer. Dept., and the CLC 2 & 3 hallways of Bldg. 5. The vinyl flooring must be a heterogeneous PVC with at least a 3 mm gauge thickness. It must have a class 1 CRF flammability rating greater than 0.45. The flooring must pass ASTM and ADA guidelines for Slip Resistance. The vinyl planks must be classified as commercial flooring with at least a 20 year limited wear warranty. It must be rated for excellent abrasion, chemical resistance, and residual indentation. VA interior designer will approve the colors and the vinyl flooring mfg. The installers will provide a layout of where the borders will run throughout the hallways.

B. Install approximately 10,600 sq. ft. of Teknoflor wood look (or the equivalent) sheet vinyl flooring in the exam rooms in Primary Care, Spec Med., ER, and the Lab Conference Room in Bldg 5 and 2 offices and Conference Room in the Research Bldg. The sheet vinyl must be at least 2.3 mm overall gauge with 5.5 lbs. per sq. inch. The wear layer must be rated Type 1 per ASTM F1301 with an embossed clear PVC wear layer of at least 20 mil. The flammability rating will be NFPA class 1 with greater than .45watts /cm2. The flooring must be in compliance with ADA and ASTM slip resistance guidelines. The flooring will have properties resistance to bacteria and fungi activity. It will also comply with resistance to chemicals and solvents, not requiring waxing or buffing with normal usage. The solid vinyl flooring will have a wear warranty of at least 10 years, reinforced with fiberglass for perfect dimensional stability. VA interior designer will approve the color and flooring mfg.

C. Install approximately 380 sq. yds. of Bigelow tile Solutions modular commercial grade carpet tile in the Engineering offices in Bldg 17 provided by the contractor. The tile must have a tufted weight of at least 20 oz/sq. yd. and be constructed with Antron Legacy nylon in a solution dyed method for superior performance with permanent stain resistance per GSA requirements. The backing of the carpet tile should be a fiberglass reinforced thermoplastic composite. Lee's Walk-Off tile is for the Corridor on the 1st floor. VA interior designer will approve the color and flooring mfg.

DEPOSIT Solicitation is posted at www.fedbizopps.gov

BID SECURITY Twenty Percent (20%)

EST. COST The estimated construction magnitude of this project is between \$500,000 and \$1,000,000.

COMPLETION Begin work within 10 calendar days after date of receipt of Notice to Proceed, and complete all work in Montana by December 15, 2012, all work in North Dakota by May 31, 2013, and all work in South Dakota and Nebraska within 365 calendar days from date of receipt of such notice.

SITE VISIT Site visits may be arranged during normal duty hours by contacting: Patrick M. Doak, Western Area Power Administration, 200 4th Street SW, Huron, SD 57350-2474, Telephone: (605) 353-2670

NOTES **This solicitation is a 100% Set-Aside for Service-Disabled Veteran-Owned Small Business Competition - Sealed Bids.**

DESC Western Area Power Administration (Western) has a requirement for a contractor to provide labor, materials, equipment, transportation and other resources to complete this microwave communications project in the Upper Great Plains. Western will provide a significant amount of Government-furnished material. The principal components of the work involve the construction of communications towers and ice bridges, relocation of communications buildings, installation and removals of antenna dishes, and installation of safety climb systems in Montana, Nebraska, and North and South Dakota. Work includes sitework, concrete foundations, grounding, demolition of structures and foundations, and transportation of a tower and building. The work is located in multiple counties in Montana, Nebraska, North Dakota, and South Dakota.
