Enough Happiness To Keep You Happy

*During the year may you have
Enough happiness to keep you sweet.*

*Enough trials to keep you strong.
Enough sorrow to keep you human.*

*Enough hope to keep you happy.
Enough failure to keep you humble.*

*Enough success to keep you eager.
Enough friends to give you comfort.*

*Enough wealth to meet your needs.
Enough enthusiasm to make you*

look forward to tomorrow.

*Enough determination to make
each day better than the day before.*

Happy New Year

*The Construction Industry Center will be closed
Monday & Tuesday, December 24th - 25th, 2012 and
Monday & Tuesday, December 31st - January 1st, 2013.*

Please have a Safe & Happy Holiday Season.

Projects Listed for Bidding

2013 **ELECTRO-TECHNOLOGY** expo

Thursday, Jan. 17 • Ramkota Inn & Convention Center, Rapid City, S.D.

Save the Date!

Thursday, Jan. 17, 2013 at the Ramkota Inn & Convention Center, Rapid City, S.D.

Looking for a way to stay plugged in with the changing energy landscape? Then come to the 13th annual Electro Technology Expo on Thursday, Jan. 17. The 2013 Expo will have exhibits featuring cutting-edge technology. Plus, workshops are given in four concurrent sessions throughout the day by leading energy industry and technology experts covering a variety of topics, including:

- LED Street and Area Lighting Case Studies
- Geothermal Systems
- Home Weatherization
- Heat Pump System Troubleshooting
- Changes in Water Heater Regulations
- Data Management Systems
- Energy-Efficient Lighting Technology
- Utility Energy Efficiency Program Overview
- Sustainability Incentives
- Hydronic In-Floor Heating Systems
- Home Automation

Only \$25 to attend! Preregister at www.blackhillspower.com by **Friday, Jan. 11**. Registration includes lunch.

CONTINUING EDUCATION HOURS AVAILABLE!

Code hour and CEU credits are available for electricians, HVAC specialists, engineers and realtors.

EXPO SCHEDULE

8:00 a.m.	Doors open for registration and exhibits open
8:15-11:45 a.m.	Tract Sessions in Progress
11:45 a.m.-1:00 p.m.	Lunch
1:15-5:00 p.m.	Tract Sessions in Progress
7:00-9:00 p.m.	Evening Session of Electrical Code Classes through the South Dakota Electrical Council

DESC	The selected consultant is anticipated to provide design services and construction services, in the described project location, related to constructing or reconstructing the water main, drain pans, curb and gutter, handicapped ramps, and a mill and overlay or full width mill and overlay, as determined by the consultant. All water mains prone to corrosion or found to be undersized by the consultant are anticipated to be replaced and any polybutylene (Poly B) water service lines, including the curb stops, found by the consultant in the service card review are anticipated to be replaced. The consultant will also provide pavement patching recommendations related to water pipe installation. Temporary construction easements may be required for the replacement of polybutylene service lines and curb stops located in private property. The consultant will be required to prepare exhibits and provide copies of deeds so the City can prepare the easement documents. The consultant will be responsible for obtaining the easements. The project location is anticipated to include Minnewasta Road from Sheridan Lake Road to approximately ninety feet south of Aster Court (just past the existing drain pan). There are three cul-de-sacs within this length that are also included in the project: Minnewasta Court, Minnewasta Place, and Aster Court.	

Billings, MT	Replacement of 180 Ton Chiller for the Billings Logan International Airport	Fri 12/28 5:00 PM MST
CIC Job Number#:	2012-2325	
OWNER	City of Billings Aviation & Transit Department BLIA Billings, MT Phone: (406) 657-8482

Cheyenne, WY	Request for Qualifications for A/E Services for a Public Safety Building	Fri 1/4 4:00 PM MST
CIC Job Number#:	2012-2260	Solicitation/Project # RFP-6-13
OWNER	City of Cheyenne Purchasing 2101 O'Neil Avenue, Municipal Building, Room 104 Cheyenne, WY 82001- Phone: (307) 637-6345 Fax: (855) 491-1859 Email: svasquez@cheyennecity.org web site: www.cheyennecity.org CONTACT Rudy Apodaca (Purchasing Director) Email: ra.podaca@cheyennecity.org	
ISSUING OFFICE	The Owner is the Issuing Office on this project.	
DEPOSIT	Documents are available from the Purchasing Office, by calling 307/637-6345 or online at http://www.cheyennecity.org .	
EST. COST	The estimated and approved cost for design, construction, furnishings and equipment for this project is \$21 M, not including land purchase.	
COMPLETION	The City intends to complete this procurement process in time to contract with a highly qualified Architecture/Engineering firm by the end of February 2013. With design complete, permitted, and contract documents ready for construction by January 2014.	
SITE VISIT	A pre-submittal building tour will be held at 1:30 PM Mountain Time on Friday December 14, 2012 at the future project site at 420 West 11th Street Cheyenne, WY 82001. Attendance is encouraged, but is not required to respond to the RFQ. Immediately following the tour, City representatives will be available to answer questions. The purpose of the tour and meeting is to present potential proposers with information about the project and procurement process. The conference will also provide a forum for interested parties to get answers to pertinent questions. Please RSVP to Lieutenant Mark Munari at mmunari@cheyennepd.org no later than 4 PM Wednesday December 12, 2012.	
NOTES	The project will be required to achieve United States Green Building Council certification for LEED Gold. The City intends to use the services of a Construction Manager At-Risk (CMAR) as defined in Wyoming State Statute 16-6-701, for the delivery method of the project. The City is currently developing a similar RFQ process to seek a qualified CMAR firm.	
DESC	The new Public Safety Center will co-locate the Cheyenne Police Department, City of Cheyenne Fire Administration, Laramie County Joint Communications Center, and the Laramie County Emergency Operations Center. The new safety center will be approximately 63,000 square feet with an approximate 24,000 square foot basement garage.

Phone: (605) 722-8650 Email: Homestake.DUSEL_Site@eRoom2.LBL.gov

CONTACT Laurie Gehner (Business Services Manager) Email: lgehner@sanfordlab.org

ISSUING OFFICE The Owner is the Issuing Office on this project.

DEPOSIT All Bid and Contract Documents may be viewed/downloaded at www.sanfordlab.org/business.

BID SECURITY Bids over \$50,000 must be accompanied by a bid security as follows: A bid bond of ten percent (10%) of the total amount of the bid, including all add alternates, shall be furnished by the Contractor. In lieu of a Bid Bond, a certified check or cashier's check for five percent (5%) of the amount of the bid, including all add alternates, may be furnished.

COMPLETION Project Start Date (tentative) January 15, 2013 (All day) - Substantial Completion April 01, 2013 (All day) - Contract Completion April 15, 2013 (All day).

SITE VISIT Mandatory Pre-bid Site Visit: A mandatory pre-bid site visit for bidders is scheduled for December 18, 2012, at 8:00 a.m. MT at the Sanford Underground Research Facility, 630 East Summit Street, Lead, SD (meet at the Administration Bldg). Bidders planning on attending the pre-bid meeting should contact Laurie Gehner, lgehner@sanfordlab.org in advance of the meeting to confirm their attendance. **CONTRACTORS MUST BE PRESENT AT THE WALK-THROUGH TO BE ELIGIBLE FOR CONSIDERATION.** Bidders attending the site visit should bring a hard hat, steel-toed shoes, safety glasses and a reflective vest.

DESC The Ross Shaft is one of the main air intakes for the ventilation of the underground workings at the Sanford Lab. Currently, a total of 110,000 cfm is drawn down the shaft. An existing direct fired natural gas makeup air heater is installed and operational for cold weather use. Its rating is 2.5 million BTU/Hr and is undersized. During cold weather, the temperatures in the shaft drop below freezing and ice builds up within the shaft. The ice has always caused problems, however now that the shaft is under full rehab construction the ice becomes very problematic. In addition, cold temperatures in the shaft during very cold weather make for very difficult working conditions. The scope of this project is to remove the existing heater and install a new one that can provide the increased amount of heat necessary to keep the shaft from freezing. This project will include the removal of the existing heater.

Sioux Falls, SD Replace Uninterruptible Power Supply (UPS) System for Building 5 NRM**Tue 1/8 10:00 AM CST****CIC Job Number#: 2012-2279****Solicitation/Project # VA26313B0220**

OWNER The owner of this project has not been specified.

ISSUING OFFICE The Architect or Engineer is the Issuing Office on this project.

DEPOSIT Electronic solicitation documents have been made available in electronic format only through the Federal Business Opportunities website at: <http://www.fedbizopps.gov>.

BID SECURITY A bid bond will be required in the amount of 20% of bid, and performance and payment bonds will be required upon award of contract.

EST. COST \$100,000 and \$250,000

COMPLETION The period of performance for this project shall be 90 calendar days from the date of the notice to proceed.

SITE VISIT An organized site visit has been scheduled for Dec 13, 2012 at 9:00 AM CST and Dec 20, 2012 at 2:00 PM CST. Participants will meet at Engineering Conference Room on the Second Floor of Building 17 on the VA Medical Center Campus located at 2501 W. 22nd Street, Sioux Falls, SD 57105.

NOTES **This procurement is 100% set-aside for SERVICE DISABLED VETERAN OWNED SMALL BUSINESS (SDVOSB).**

DESC This project primarily consists of removing the existing 50 kVA UPS in room E23 and replacing with a new 120 kVA UPS in the same location.

Brookings, SD RFI - SDSU Medary Commons Renovation

Tue 1/8 5:00 PM CST

CIC Job Number#: 2012-2358**Solicitation/Project # OSE# R0313-11X**

OWNER State of South Dakota Office of the State Engineer Joe Foss Building, 523 East Capitol Pierre, SD 57501-3182
Phone: (605) 773-3466 Fax: (605) 773-5980 web site: www.state.sd.us/boa/ose/
CONTACT Kevin Espeland Phone: (605) 773-7052 Email: Kevin.Espeland@state.sd.us

ISSUING OFFICE The Owner is the Issuing Office on this project.

DEPOSIT Specifications may be viewed/downloaded at <http://www.state.sd.us/boa/ose/RequestStatementsInterest.htm>

COMPLETION The schedule for the project has not been determined. The project site will be available for construction by September of 2013.

DESC The Office of the State Engineer, on behalf of South Dakota State University, is soliciting Statements of Interest from firms interested in providing professional architectural and engineering services for the referenced project. The project is envisioned as a renovation and addition to the SDSU Medary Commons. This is to repurpose the building from use as a food service cooking and dining facility to a university enrollment services center. The renovated facility will house the consolidated operations of the Offices of Admissions, Financial Aid, Registration and Records, and Scholarships to support the University's Student Success efforts by providing a convenient and accessible location for enrollment related functions. These offices will be relocated from the Administration Building upon completion of the project.

NOTES **This solicitation is RESTRICTED TO SMALL BUSINESS PARTICIPATION ONLY.**
DESC Add/Alter Munitions AGE Facility is a 3-bay addition to the existing 3-bay AGE facility and will provide the necessary space for the storage and maintenance of Munitions Handling Trailers (MHTs). The addition consists of a one-story steel post and beam framed maintenance bay structure similar to the existing 3-bay facility with non-load bearing masonry and steel framed walls. The new addition will be approximately 7,750 square feet with metal panel siding, reinforced concrete foundation and floor slabs. The exterior walls are clad with insulated metal panel to match the existing structure. The roof is standing seam metal with a membrane underlayment. The project will include design and construction of the three additional work bays, attached electrical room, mechanical room, and generator room. Site improvements will include removal of pavement for the construction of the addition as well as adjacent paving in the vehicle/trailer circulation areas to match existing grades. The design-build requirements will stipulate compliance with current building and fire protection codes, accessibility, electrical, plumbing, and other systems; and meet any required antiterrorism/force protection (AT/FP). The alteration portion of the project will include approximately 11,430 gross square feet of existing space and require mechanical (new HVAC system) and electrical upgrades (lighting fixtures) throughout as well as plumbing and plumbing fixtures. Interior finishes will require new paint throughout.

DESC Western Area Power Administration has a requirement for a contractor to provide all labor, materials, equipment, transportation and other resources to complete this project in a high voltage electrical substation in Williston, ND. The principle components of the work include providing an oil detention basin; concrete foundations and anchor bolts for substation structures, transmission line structures, and electrical equipment; providing galvanized steel structures; installing government-furnished equipment; grounding system; conduit; and control cable.

PLAN HOLDERS LIST AVAILABLE AT CIC

Ten Counties in, SD Request for Proposals - Core Optimization Study of the Oglala Sioux Rural Water Supply System

Mon 2/25 12:00 AM MST

CIC Job Number#: 2012-2333

OWNER Mni Wiconi Water Treatment Plant P.O. Box 1209 28542 Trails End Road Fort Pierre, SD 57532-
Phone: (605) 223-9292

ISSUING OFFICE The Owner is the Issuing Office on this project.

DEPOSIT Parties desiring to participate in this project may obtain a Request for Proposal from: Ray Ecoffey OSRWSS-Mni Wiconi Water Treatment Plant P.O. Box 1209 28542 Trails End Road Ft. Pierre, SD 57532 (605) 223-9292 Or online at: <https://docs.google.com/open?id=0B78qaSGK7kO3cmJzOVpnZmJUM3M>

COMPLETION Desired Contract Completion Date is September 24, 2013

SITE VISIT A MANADATORY pre-proposal meeting will be held at the OSRWSS Water Treatment Plant in Ft. Pierre, SD on January 10, 2013

DESC The Oglala Sioux Rural Water Supply System (OSRWSS) is soliciting competitive sealed proposals for Engineering services from qualified firms to perform an optimization study on the OSRWSS Core System which will provide energy cost savings, operational and capital improvement recommendations, while maintaining or improving water quality. Work will include the delivery of a refined or developed KYPipe hydraulic model, including instruction, which will be used in the optimization study. The objective of this selection process is to acquire professional services performed by a qualified firm to conduct an independent evaluation for the purpose listed above. General Information: The Mni Wiconi Rural Water System is a rural water system located in ten counties in south central/southwest South Dakota that supplies treated surface water through the Oglala Sioux Rural Water Supply System (OSRWSS) Core Systems, to three tribal and one non-tribal entities. These entities consist of the Lower Brule Sioux Rural Water System, Rosebud Sioux Rural Water System, OSRWSS on-reservation distribution system and West River/Lyman Jones Rural Water Systems. The service area extends from the central part of South Dakota to the southwestern part of the state, including all or parts of Bennett, Haakon, Jackson, Jones, Lyman, Mellette, Pennington, Todd, Shannon, and Stanley counties, covering 12,500 square miles or about 1/6 of the total area of South Dakota.

The offers shall make recommendations that will optimize existing operational practices of the OSRWSS Core System, which has the potential to reduce energy and demand costs while maintaining or improving water quality. The evaluation is to identify opportunities to reduce energy cost, i.e. base rate and demand charges, along with recommendations concerning operational changes, potential infrastructure modifications or additions throughout the OSRWSS Core System. The offeror is also tasked with calibrating and optimizing a rudimentary based KYPipe hydraulic model. The offeror will use the finished model to simulate current operations, and to develop and compare optimized alternatives, while assessing the impact of those potential changes on water quality. The final report shall describe and compare current operations and existing water quality to their recommended changes, which first optimize operational changes and then suggested capital improvement. The affect on water quality for each of the above scenarios shall be discussed and documented in the final report and presentation. Data provided includes historic operational data (spreadsheets), as-built drawings, and a base KYPipe model. It is the offeror's sole responsibility to ensure that sufficient data/information is acquired to complete the evaluation, scope of work and deliverables, as described herein. The offeror shall perform field investigations to verify the available data and shall collect any additional data necessary to complete the evaluation. This data shall include, but not be limited to, pump station attributes and features, water storage tank characteristics, control valve and Combination Air Release/Vacuum Release Valve properties, elevations, meters, and water demands including average day and peak day flows. Some of this data will be included in the base KYPipe model provided. The offeror is responsible to collect whatever additional data is necessary to complete the hydraulic model used in the optimization study.

Remember... *Play It Safe!*

Make sure the first
step in your next
digging project is a
phone call. It's the
law ... and it could
save your life.

Know what's below.
Call before you dig.

Don't Forget...

Call 48 hours before you dig.

In South Dakota call 811 or
1-800-781-7474 before you dig.
