RETIREMENT OPEN HOUSE

Stephen Burgess

With more than 48 years in the construction industry, Steve has built a career defined by dedication, leadership, and a lasting impact on the people and communities around him.

After earning his bachelor's degree in Civil Engineering from the South Dakota School of Mines and Technology, Steve began his career in Arizona, working in highway construction, Department of Transportation projects, and underground utilities. In 1984, he brought his experience and talents to Rapid City, joining Dean Kurtz Construction Company as a Project Manager and Estimator.

Over the years, Steve became an integral part of the company's growth and success. In 2000, he became a company shareholder and assumed the role of Vice President of Operations. Throughout his tenure, he has played an instrumental role in overseeing company operations, guiding projects, and, perhaps most importantly, sharing his knowledge and experience with the next generation of construction professionals.

Steve's contributions extend well beyond the construction industry. His commitment to the community has been evident through years of service on numerous boards and organizations, including the CIC Board of Directors, youth sports organizations, the South Dakota AGC Building Chapter Board, the YMCA Board of Directors, and the South Dakota State Electrical Commission.

As Steve begins this next chapter, we celebrate not only his remarkable career and professional accomplishments but also the relationships he has built, the people he has mentored, and the many ways he has helped shape our company and community.

Congratulations, Steve, on a well-deserved retirement! Thank you for nearly five decades of dedication, leadership, and friendship. Your contributions have made a lasting difference.

Enjoy your retirement (aka extended-FTO).
