Conti Federal - 115 Years of Proven Success

With roots dating back **115 years**, Conti Federal has been trusted with some of the largest and most demanding projects around the globe for the U.S. federal government, delivering them on-time and on-budget. From constructing the first **F-35 Hardened Aircraft Shelters** in Israel to building a new C-17 Assault Landing Zone runway at **Joint Base McGuire-Dix-Lakehurst**, Conti Federal is looking for partners who are ready to tackle this exciting new project at Ellsworth Air Force Base.

With years of record performance, Conti Federal has received multiple industry awards and rankings for our achievements as a leading general contractor in the federal contract space.
