

Two-Day/In-Person

# Project Scheduling Training Course

**AGC**  
SOUTH DAKOTA  
THE CONSTRUCTION ASSOCIATION

Choose One Session:

**April 7-8 | Rapid City**  
8:00am - 5:00pm MT  
(exact location TBA)

**April 21-22 | Sioux Falls**  
8:00am - 5:00pm CT  
(exact location TBA)

\* Curriculum Based on AGC of America's Supervisory Training Program (STP) Unit 3

\* Course Includes Specific References to SDDOT Project Scheduling Requirements

## Who Should Attend:

Project Managers and Superintendents who want practical leadership strategies to improve safety, protect profits, and confidently create and update schedules that meet SDDOT project scheduling requirements.

## What You Will Learn:

- How to manage people, time, and materials effectively.
- Practical & leadership skills to improve jobsite efficiency through project scheduling.
- How to create and update schedules in accordance with SDDOT project scheduling requirements.

\*\* This course is designed for anyone serving in a supervisory role on a construction jobsite - from new supervisors and foremen to experienced project managers & superintendents looking to sharpen their leadership and management skills. As part of AGC's updated, construction-specific Supervisory Training Program (STP), it provides practical, field-tested instruction to help you more effectively manage people, time, equipment, and materials - and keep projects running smoothly from start to finish using effective project scheduling.

✓ **Limited to 35 Participants**

✓ **\$300.00 Per Participant**

(includes STP manual)

## Meet Your Facilitator:

**Daniel Beatty**  
Founder and Owner, Constructive Leadership Solutions

Daniel Beatty knows construction from the ground up - and he knows that strong projects start with stronger people. With over 35 years leading heavy civil construction teams as a project manager, estimator, and executive, Daniel brings a rare blend of field-tested experience and fresh, people centered leadership strategies to today's workforce challenges.
