Ed's Undercover Persona

"Undercover, I saw youth in trouble, not thinking for themselves, just believing whatever friends & dealers said. Adults avoided what they didn't understand or didn't know how to manage.

In my presentations I encourage others to do as Mr. Penturf, my HS science teacher, taught me, 'Don't focus just on the answer, but rather HOW you get to that point, IF you believe it, and WHY.'

THINK for yourself & seek credible information that will and should be tested."
